오류 MARC	 <p>The screenshot shows a MARC record interface. On the left, a list of 11 records is displayed with columns for '순번 기준 중복' (Duplicate by Serial Number), '서명' (Title), '저자' (Author), '발행처' (Publisher), '발행년' (Year), '유형' (Type), '요청' (Request), '요청번호' (Request Number), and '요청기관' (Requesting Agency). The '요청자' (Requester) column is empty for all records. On the right, a detailed view of the first record is shown, with a red box highlighting the '요청자' field, which is empty. The detailed view includes fields like '[unam a]00723nam u200229 a 4500', '001', '005 20091204162743', '008 060202s2008 gw b 001 0 ger', '004 #W0200600506', '007 ta', '020 ▼a9783832931995 :▼cEur49.00', '040 ▼a', '049 0 ▼#0285891 ▼fLA', '056 ▼a364, 262 ▼24', '090 ▼a364, 262 ▼bM972a', '100 1 ▼aMurawska, Agnieszka A.', '245 10 ▼aAdministrative Anti-Fraud Measures within the European Union :▼bNecessity and Mea', 'cAgnieszka A.
